LE/EECS 4412 – Data Mining
Winter 2022 – Section M

Course Project

Submission Deadline: Sunday April 10, 2022, before 23:59

Part 5: Presentation

Objectives

The purpose of this activity is to present a summary of your learnings from this project.

Submission Requirements

- Please submit your presentation in a suitable vide format, preferably of small size but clear quality.
- The name of the file(s) must be your YorkU student number(s) such as `100131001-100131002.*`.
- File must be uploaded to the Part5 submission link provided. The name of submission on the link must also be the same as your file name above.
- Your diagrams, if applicable, can be hand drawn or digital. In both cases, the images must be clear.
- If the files do not open properly or the content is not clear, then you will be awarded zero.
- **Deadline is April 10, 2022, before 23:59. Late submission is not permitted for this part.**
- **Your submissions will be verified using Turnitin (or some other suitable tool) for originality. 40% or more similarity will be awarded zero in the assignment and reported to the department. We may report similarity less than 40% if it is of significant nature.**

Warning: Please add the necessary headings and labels to your submission so that the TAs can understand the different parts properly. Anything that we cannot understand will be awarded zero.

General Instructions

- **Please add the statement given in Appendix A in a pdf file and upload it to the provided submission link. Each team member must add her own statement.**
- **Please make sure that your submission is easy to understand; clearly add the headings, captions and foot notes wherever required. If the TA can't locate, then it is your responsibility.**
- **Make sure that images/screenshots are clear. If the image is big, then split it into multiple parts. Clearly write their purpose. You can add multiple images to make sure that your argument is easy to comprehend.**
- **Highlight the significant parts of each image so that TA can easily identify the required information.**
- **Add necessary explanation to make sure that TA can understand different parts of your submission.**

Presentation Requirements

- The duration of the presentation must be 4-8 minutes.
- It is not required for all team members to participate. Also, it is not required to show the speaker in the presentation.
- In your presentation you must discuss:
    - What your data set was (not more than 1 minute)
    - What were your five analysis questions/objectives?
    - In terms of achieving those five objectives, what have you learnt through the tasks that you performed such as suitable preprocessing approaches, suitable data mining techniques, reformulation of objectives, limitations of available data etc.

Appendix A

The following statement must be added in the beginning of your report. Each team member must submit her own independent statement. The signature can be electronic, or you can add a scan of statement with handwritten signature.

I *student_name* student ID # *student_id* acknowledge that I have contributed at least 30% time and effort to the preparation of this report and work discussed herein.
